Explicit Cast

unsafe

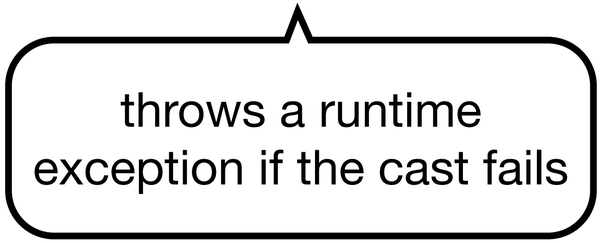
```
fun unsafeCast(n: Number?) {
    val i: Int = n as Int
}
```

throws a runtime exception if the cast fails

Explicit Cast

unsafe

```
fun unsafeCast(n: Number?) {
    val i: Int = n as Int
}
```



Explicit Cast

safe

```
fun safeCast(n: Number?) {
    val i: Int? = n as? Int
}
```
